Other guidelines:

- The portfolio must be in line with the underlying Member's attitude to risk.
- Esoteric funds are not permitted.
- In addition, the Trustee and Scheme Administrator will give consideration to the following factors in determining whether an investment is acceptable:
 - Overall size of the fund
 - Credit risk of the underlying investment
 - The need to have sufficient liquid funds to pay benefits as they arise.
 - Collective Investment Schemes or Funds that provide a sector or geographical spread are acceptable, even if the investments are confined to one Fund, with a recognised provider, so long as the said Fund is an acceptable Fund of Funds.
- In addition to the above, the portfolio should be constructed in such a way as to avoid excessive exposure to any single sector, any single region or to any single credit risk.
- Acceptance of all assets are at the discretion of the Trustees.

The Trustee and Scheme Administrator will consider exceptions to this policy from time to time, however any request for variance must be supported by appropriate information and background, with the Trustee retaining ultimate discretion.
